D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children. The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing, and other services; and to encourage the use of various community resources through referral to appropriate providers. Case management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each eligible child.
2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.
3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child's assessed needs. Case management follow-up services are limited to 12 visits annually.
4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.
